### **Congressman Heath Shuler's Statement on the President's State of the Union Address**

*Washington, D.C.* – Representative Heath Shuler released the following statement this morning regarding President Bush's State of the Union address.

"Last night in his State of the Union address President Bush called for many things – from to a real commitment to alternative energy to balancing the budget to making health care more affordable for working Americans. However, these are all items we have heard him talk about before, and the American people are tired of talk. Now, we need action."

"I look forward to working with members of both parties to move this Congress beyond partisan differences and solve the serious issues facing our nation."
